

Staff Qualifications

All swimming teachers, pool helpers, leisure attendants, and management team members have undergone enhanced Disclosure and Barring Service (DBS) checks.

Procedure for Children Needing the Toilet During Swimming Lessons

Informing the Teacher: If a child needs to use the toilet, they should inform their teacher.

Children Aged 8 and Over: The teacher will ask if they need help from a parent/caregiver. If no help is needed, the child can go to the toilet unassisted.

Children Needing Assistance: If a child needs assistance from their parent/caregiver, the teacher will get your attention. If available, a pool helper or leisure attendant will escort the child to the poolside changing room entrance, meet the parent/caregiver, and wait at the entrance until they return.
